

BUSINESS SERVICES

American PC Solutions has a plethora of solutions for business users.

NETWORK DESIGN, INSTALLATION, AND MAINTENANCE

Allow us to sit with you and listen to your computer/network needs. We would like the opportunity to show you the features of today's server operating systems like Microsoft Windows Small Business Server 2003; Features like secure remote access to the server for maintenance and to all workstations, interoffice messaging systems, remote mail access, enhanced network and internet security, etc.

SCHEDULED MAINTENANCE

We keep you running smoothly by staying ahead of the today's perils associated with computer and internet usage. Let us stay on top of the current threats and build a perimeter of defense for you and your employees. Services provided during scheduled maintenance include:

- **Virus/trojan removal if necessary**
- **Adware/spyware removal**
- **Browser hijacker cleanup**
- **System performance "tweaking"**
- **Device driver updates**
- **Microsoft Windows Critical Updates maintenance**
- **Antivirus software maintenance including updates and system scans**
- **Hard Drive maintenance**
- **Verification of reliable backups**
- **Firewall recommendations and maintenance**

DATA PROTECTION/DATA BACKUP SOLUTIONS

American PC Solutions specializes in comprehensive backup systems using today's drive imaging technology. Drive imaging provides reliability, backup file access and complete drive restoration. Restoring a business operating from tape or other media like CD or DVD requires reloading the entire operating system, additional software, updates, network settings, etc before the data can be reloaded from the backup. This can take numerous hours to days. Drive imaging al-

YOUR BUSINESS

allows the restoration of an entire drive including the operating system, all software and all data in a very short time of minutes to hours. We can custom design a drive imaging backup system complete with off-site backup storage options. Let us change your mind about backup systems.

SERVER INSTALLATIONS/MAINTENANCE

American PC Solutions can empower your business by a server(s) or we can maintain your current server(s). We custom build network servers using top of the line components from companies like Intel, Asus, AMD, Western Digital and more. We can also provide maintenance services for your existing server.

APCS offers many more services. Give us a call and see if our people can help your people.
